

Water Probe™

Let the water do the work for you; no need to push hard. Penetrates hard, dry soil. Also works well for penetrating the frost layer. Can also be used to clean out meter boxes and catch basins.

The **Water Probe™** is designed for water to flow through the shaft by attaching it to a standard garden hose.

***Product Designed for Low Pressure 100 PSI Maximum**

Water Probe™ features:

Grips:

- Bright color, easy to see
- Insulates against cold
- Comfortable, smooth, durable vinyl softens impact

Shaft:

- High quality thick-wall steel tubing resists bending
- Handle and shaft threaded for secure connection and ease of replacement

Handle:

- 1" steel tubing
- standard hose connector. Brass

Tip:

- Improved design for less clogging
- Beveled for better penetration
- Hardened steel

Valve:

- Brass full port
- Conveniently located control

CAUTION

This PROBE is NOT INSULATED and does not provide protection against electrical shocks. For an insulated probe, buy a Mighty Probe™.
